DETAILED ACTION

Election/Restrictions

1. Applicant's election of Species b) figures 7-11, claims 1-3, 6-16, 18, and 19 in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 4, 5, and 17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.
3. Please note that claims 4, 5, and 17 have been withdrawn from consideration by the examiner as being drawn to a non-elected species. Also, there is no support in the specification for claim 5 or in the drawings.

Specification

4. The disclosure is objected to because of the following informalities: on page 11 line 24, reference numeral "80", Is it correct? Or should it be "180"? Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3763

- There is no antecedent basis for "the step of providing a lock".

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 3, and 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Wozencroft (US 5,573,513).

Wozencroft discloses a medical device and a method of using the device including the steps as claimed. The device includes barrel 14, a cartridge 9 with a plunger 13, an inner housing 2, a needle 5, a first lock 25 (fig. 8), a second lock 26 (fig. 4), a biasing element 19, and an actuator 10. The device further includes a guide 24 for impeding rotation of the housing to the barrel during retraction.

Allowable Subject Matter

9. Claims 2, 6, 13-16, 18, and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
